

[DRAFT – March 26, 2018: SUBJECT TO CHANGE BEFORE COURSE BEGINS]

ENVIRONMENTAL ENFORCEMENT AND COMPLIANCE

Instructor: Randolph L. Hill
Summer 2018, Term Three, July 9–19
9:00a.m.–12:00p.m.

This course is an introduction to the theory and practice of enforcement of the federal pollution control laws. The course will first discuss the basic regulatory structure of the pollution control laws and the administrative, civil judicial, and criminal enforcement tools available to federal and state regulators to ensure compliance with those laws. The course will then delve into the practice of civil enforcement, including methods for investigating and establishing potential violations, selection of the appropriate enforcement response, calculation of penalties, use of supplemental environmental projects or other innovative remedies, and practical issues arising in citizen suit enforcement. The course will also discuss key issues related to criminal enforcement, including establishment of the elements of the offense and considerations of mental state requirements and the burden of proof. Finally, the course will discuss alternatives to traditional command-and-control regulation and enforcement for gaining compliance with environmental standards.

Prerequisites: Environmental Law; Administrative Law may also be helpful.

Readings:

- 1) Mintz, et al., Environmental Enforcement, Carolina Academic Press 2007, ISBN 978-1-59460-033-3 (including 2012 Supplement, available on TWEN)
- 2) Anderson, et al., Environmental Law Practice 4th ed., Carolina Academic Press 2018, ISBN 978-1-53100-531-3
- 3) Supplemental Materials Available on TWEN for This Course

A couple of notes about the Anderson book:

- 1) Some of the textual material covers the same topics as Mintz. These are noted on the syllabus as “recommended.” Read these if you want a different perspective. Material that is unique to Anderson is listed as “required.”
- 2) There are several problems and exercises in the book. Except for Exercises 2.1-2.3, you need not study them in detail.

Evaluation: There will be an take-home final examination beginning on Thursday, July 19th, and will be due on Sunday, July 22nd at 6:00pm Eastern time. The exam will be blind-graded. More details and a sample exam will follow. Class participation is encouraged, but will not form a part of the final grade.

NOTE: Please read the first assignment prior to the first class.
