

Course Syllabus

THE LAW OF ECOSYSTEM MANAGEMENT VERMONT LAW SCHOOL SUMMER 2021 | TERM TWO | MORNINGS 9:00 -12:00

Personal Statement

Prior to the beginning of the class, please e-mail both of us a short personal statement about you, your background, your interest in the topic of ecosystem management, what you hope to get from the class, and what you aspire to accomplish in your legal career. This is an ungraded personal statement that helps us get a feel for the mix of perspectives in the class. We will not share these with the class, and you need not provide any information that makes you uncomfortable. We will give the class our respective personal statements orally on the first class day each week!

Reading Assignments

WEEK ONE

Day 1 – Introduction to Ecosystem Management

Text 1-59
