For our first class, please:

1. Read the syllabus, which is also available on Microsoft Teams. If you have not been added to the class Team, please email me for access.
2. Access the appropriate class in Teams and read the materials provided for Assignment 1. Do not be alarmed by the volume of pages, these are mostly guides and articles intended for laypersons, both easy to read and heavy on graphic elements.
3. Come to class prepared to discuss the readings and to describe the plant and method you plan to use for the semester-long assignment.
