

Global Energy Law & Policy: Europe in Crisis

The Trilemma of Liberalization, Decarbonization and Energy Security

Students are expected to have read the material before the class session for which it is assigned, as listed in the course calendar. Please note that there are required readings before the **first class (posted below)**.

Class 1 (June 21) – Introduction to Global Energy Law & Policy and EU Law: Sources and Foundations

This introductory class will cover two dimensions:

- 1) the sources and foundations of international energy law, including its institutions, actors and legal instruments, and,
- 2) an introduction to the EU and its legal order, including its institutions, legislation and competences

Readings:

S Bruce, *International Energy Law*, Max Planck Encyclopedia of Public International Law (MPEPIL), Oxford Public International Law

Links in syllabus to:
