

SYLLABUS
TOXICS EXPOSURE AND HEALTH
SUMMER 2023

Professor
Daniel Rosenberg

CLASS INFORMATION:

Dates: Friday July 14 – Sunday July 16

Time: Friday 4-6PM, Saturday and Sunday 9am-11:30am, 1-4 pm (EDT)

Classroom: 207

Office: Oakes Hall

I. Friday: Introduction and Overview

- General Introduction to the issue of PFAS
- Discussion of the movie Dark Waters and assigned reading
- Two communities: Village of Hoosick Falls, Cape Fear River Basin
- Overview of the main federal environmental laws

Viewing:

Please watch the movie Dark Waters before class (it is on Amazon or Netflix). If you have already seen it, but not recently, please watch it again.

Reading:

Materials in the “Introduction” Folder on TWEN including in the “Hoosick Falls” and “Cape Fear River” folders

Assignment: Think of any questions you have about the PFAS issue, after watching the movie and reading the other required materials for the introduction
